Subject: Salisbury Facility, 124 West College Avenue, Salisbury, Maryland -- Adjacent Parcels Evaluation Summary
Attachments: Salisbury - Adjacent Parcels Evaluation Summary (final 12-2-20).pdf

Diane –

The purpose of this e-mail is to transmit on behalf of DII Industries, LLC (“DII”) the attached submission for consideration by the United States Environmental Protection Agency (“EPA”) in connection with the ongoing activities being conducted by DII at the Salisbury facility. The submission addresses the question of whether the three parcels that were used for employee parking at various points over the time period during which the Salisbury facility was in active operation (the North Parking Lot, the East Parking Lot, and the South Parking Lot) should be considered to be part of the “site” for purposes of the RCRA corrective action program. As DII has discussed previously with EPA, DII does not believe that the three parking lot parcels are subject to the RCRA corrective action program. Regardless of DII’s position on this issue, the information presented in the submission indicates there is no evidence of potential environmental concerns at any of the parking lot parcels that require further investigation by DII under the RCRA corrective action program.

Please do not hesitate to contact me if you should have any questions regarding the attached submission.

Best regards,
Mark
